One company in Col Berdan's Regiment of Sharpshooters--Capt Drew. A DEAD BODY LIES THRETEEN DAYS IN CITY HOTEL WITHOUT DISCOVERY .- The

Utica (New York) Herald gives the follow ing account of a singular occurrence in that city:

"A Mrs. Wilson, of New York, who kept a large boarding house on Lafayette Place -aged about sixty, came up to Utica on business. With a friend, Mr. Holt, she returned to Bragg's Hotel in the evening, to await a train of cars. After talking awhile with Mr. Holt, she excused herself for a few moments, and left the ladies' parlor. Mr. Holt waited in vain for her return, then made search for her through the halls, in the depot, &c., but concluding Mis. W. had by mistake taken a western bound train, he abandoned the search and went home .-This was on the 12th. Some days after, the son in-law of Mrs. Wilson, alarmed at her long absence, visited Utica, learned the Pald up Capital, Supplus and Reserved Funds \$6,304.125 facts as to her disappearance, and then in- live sted in this Country, over..... stituted a thorough search, which resulted in finding Mrs. W's dead body at the foot of a short flight of steps, which led from a THE SHARPHOLDERS PERSONALLY RESPONSI-wash room—just across the hall from the BLE FOR ENGAGEMENTS OF THE COMPANY. wash room-just across the hall from the ladies parlor-down to an unused store room. She was found with her head down at the foot of the stairs, and her body lying on the stairs and her neck broken. By a mistake she took the wrong way out. The

body had lain there thirteen days." THEN AND Now .- Twenty days ago our brave troops in Missouri had just routed the enemy in the battle of Frederictown, Directors and Shareholders in N. Y. and the four successive skirmishes of Levington, Wet Glaze, Linn Creek, and Spring field. They had driven the rebels down to the Arkansas line, and were still in pursuit, when Gen. Fremont was removed from the command for the incompetency." Since that time our army has evacuated Springfield, ALEXINDER HARLETON, Jr., coq. leaving all Southern Missouri to be nnew overrun by the rebels, while Union families by hundreds are flying for their lives. The enemy has been permitted to advance more than a hundred miles to the north, burn Warsaw, and destroy the government supplies which were stored there, rob the steamer Platte Valley on the Mississippi, and the Soushine on the Missouri, and capture a valuable train loaded with guns, between Sedalia and Leavenworth. But, on the other hand, great vigor has been shown in giving orders for the rendition of fugitive slaves, in hunting down even the negroes who accompanied Gsn. Fremont and his staff on their return to St. Louis, culminating in Gen. Halleck's order to kick out all fugitives who have sought protection in

We do not venture to make any comment upon these facts, Indeed, they need none. St. Louis Dem. 28th.

CLOTH MITTENS .- A lady correspondent of one of the New York papers calls attention to the fact that cloth mittens could be made for our soldiers with sewing machines at a comparatively small cost. In this way she thinks our army could be provided with these useful articles before the cold weather sets in. She says that "cloth should be strong and soft, and the miltens should be cut bias of the cloth. They may be bound with Canton flannel or woolen, and if well made, would last through the season with ordinary usage." The suggestion may be worthy of attention. Knit mittens are andoubtedly preferable if they can be furnished in time; but if not the sewing machine might be called into requisition.

A DEAD BODY LIES THIRTEEN DAYS IN Utica (New York) Herald gives the following account of a singular occurrence in

that city:
"A Mrs. Wilson, of New York, who kept a large boarding house on Lafayette Place

aged about sixty, came up to Utica on business. With a friend, Mr. Holt, she returned to Bragg's Hotel in the evening, to await a train of cars. After talking awhile with Mr. Holt, she excused herself for a few moments, and left the ladies' parlor. Mr. Holt waited in vain for her return, then made search for her through the halls, in the depot, &c., but concluding Mrs. W. had by mistake taken a western bound train, he abandoned the search and went home. This was on the 12th. Some days after, the son-in-law of Mrs. Wilson, alarmed at her long absence, visited Utica, learned the facts as to her disappearance, and then in stituted a thorough search, which resulted in finding Mrs. W.'s dead body at the foot of a short flight of steps, which led from a wash room—just across the hall from the ladies parlor-down to an unused store room. She was found with her head down at the foot of the stairs, and her body lying on the stairs and her neck broken. mistake she took the wrong way out. The body had lain there thirteen days."

THEN AND NOW .- I wenty days ago our brave troops in Missouri had just routed the enemy in the battle of Frederictown, and the four successive skirmishes of Lexington, Wet Glaze, Linn Creek, and Spring field. They had driven the rebels down to the Arkansas line, and were still in parsuit, when Gen. Fremont was removed from the command for \mathbb{\cappa}" incompetency." Since that time our army has evacuated Springfield, leaving all Southern Missouri to be anew overrun by the rebels, while Union families by hundreds are flying for their lives. The enemy has been permitted to advance more than a hundred miles to the north, burn Warsaw, and destroy the government supplies which were stored there, rob the steamer Platte Valley on the Mississippi, and the Sunshine on the Missouri, and capand the Sunshine on the Missouri, and capand with a capands. ture a valuable train loaded with guns, be tween Sedalia and Leavenworth. But, or the other hand, great vigor has been shown in giving orders for the rendition of fugi-tive slaves, in hunting down even the negroes who accompanied Gan. Fremont and his staff on their return to St. Louis, culminating in Gen. Halleck's order to kick out all fagitives who have sought protection in

We do not venture to make any comment upon these facts, Indeed, they need none.

St. Louis Dem. 28th.

CLOTH MITTERS.—A lady correspondent of one of the New York papers calls attention to the fact that cloth mittens could be made for our soldiers with sewing machines at a comparatively small cost. In this way she thinks our army could be provided with these useful articles before the cold weather sets in. She says that "cloth should be strong and soft, and the mittens should be cut bias of the cloth. They may be bound with Canton flamel or woolen, and if well made, would last through the season with ordinary usage." The suggestion may be worthy of attention. Knit mittens are un-FINEST Raitimore Oysters received daily. For sale by the can, dozen cans or case, at lowest murket price.

FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.

Our No. 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK.

in Carriage Trimming, Boot and Shoe Making, Har-ness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the larg-est sixed dushes. Force is scarcely any part of a Trim-iners' stitching that cannot be better done with them than by mand; so, too, the saving of time and labor is very great. The table under these muchines is 24 inch-es long, and the shuttle will held six times the usual quantity of thread. The large machines work as just as small ones.

quantity of thread. The large machines, the special as small ones.

We would ask for our Letter A machines, the special attention of Yost Makers and Dress Makers, and all those who want machines for Light Manulacturing purposes. They embody the principles of the standard machines, unaking like them, the interlock stitch, and are destined to be as ceichrated for Family Sewing and Hair manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc. We manufacture our own Needles, and would warm and additional series of the machines and would warn all persons using our machines not to biny any others. We know that there are needles sold of the most information quality, at higher prices than we oburge for the hest. The needles sold by us are manufactured aspecially for our machines. A bad needle may render the best machine almost uncless.

1. M. SINGER & CO.'S GAZETTE,

which is a beautifully illustrated Pictorial Paper. It will be sent Gratis We have made the above Reduction in Prices with the two-fold view of benefitting thepublic and ourselves. The public have heen swindled by spurious machines made in initiation of ours. The metal in them, from the iron easting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always inble to get out of ord-r, and are sure to cost considerable trouble and money to keep them in repair. The quadities to be looked for it a machine are: excising of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation, with the least tubor. Machines to combine these essential qualities, must be made of the best metal and finishment do prefer toom. We have the ways and means, on a grand scale, to do this.

The proclasers of machines, whose dolly broad it may concern, will find that those having the above qualities not only work well as rapid as well as slow, rates of speed, but last long in the linest possible working order. Our machines, as made by us, will carn more morey with less lateer than any others, whicher in initiation of curs or not. In fact, they are cheaper than any others whether in militation of ours or not. In fact, they are cheaper than any other machines as agift.

Forever float that standard sheet! Where breathes the foe but falls before us? With Freedom's soil beneath our feet, And Freedom's bunner streaming o'er us!

The recommendation of the president to enlarge the boundaries of the District of Columbia is probably wise and proper, but sides the disgrace of permitting human servitude to exist under the shadows of the ceedingly pernicious. No matter whom we elect, the poison of slavery begins to work upon him the moment he puts his foot in Washington. The social and political atmosphere is such that few northern men are able to withstand it. It has, during this rebellion, nearly emasculated the government. Let it be wiped out, or the capitol removed to free soil. The institution that is the cause of the present unhappy civil war, should not be tolerated a single instant where the power of the government is sufficient to strike it down.

THE MILITARY RAILBOAD TO NORTH CARoursy.-The railroad recommended by the president to be immediately built as a military necessity, to accommodate the loyal regions of East Tennessee and North Carolina, through the Cumberland Gap, would not be less than 250 miles in length. The route being over a hilly and mountainous country, it would cost, including rolling stock, about 50,000 dollars per mile, or \$12,500.000 in the aggregate. Congress will hardly see the necessity of this measure. The first thing to be done to make its construction convenient, would be to get possession of the country. That being accomplished, the railroad would not be needed. If it is proposed to begin before driving out the rebels, perhaps Jeff. Davis would build one half of it. He ought to do so, in strict | waiting for is for orders to move. justice, as he uses all the other railroads of the south which would connect with this proposed line.

CHARACTERISTIC.-The Madison Journal has procured a report of the infantry enli-tments in this state by counties up to the TWELFIL, including that regiment. The sole object of this report seems to us to enable that paper to make " a blow " for Dane county, and, of course, is a very valuable piece of general information! By this operation, the 11th regiment, in which there are more Dane county recruits than in any other, is included, and Dane is shown to be ahead of Rock, and the second in the state, Milwankee taking the lead. By stopping with the 12th, the 13th, to which Rock county has contributed three-quarters of the whole number, is excluded. According to this table, Dane is reported at 840 enlistments, and Rock at 523.

Nothing, moreover, is said about the large number of Rock county recruits in the companies organised in Madison, which help Dane county to the 840 men claimed for her, when it is notorious that in some of the Madison companies a majority whent from Rock county, because the state officers being in Madison gave that place peculiar facilities for puompt enlistment in the outbreak of the war. Rock county has enlisted over 1,400 infantry volunteers in various regiments, at least two cavalry and one artillery company, a considerable number in the regular army, and Illinois has drawn many from the county. Dane county has not done near as well, though Madison has got the lion's share of the benefits derived from the organization of the troops

This attempt of the Journal to make a reputation for Dane county might have been expected when any local interest is in question, but it looks to us like a very small

REPORT OF THE SECRETARY OF WAR .-We publish that portion of the report of the secretary of war, to-day, which discussthe slaves of rebels. It will be found, unlike the message of the president on that subject, clear, practical and right. We shall, to-morrow, commence the publication offence is regarded as one of the most of the entire report. It will amply repay grave that a soldier can commit, inasmuch an attentive perusal.

SLIGHTLY MISTAKEN.-The secretary of war says, in his report, that the rebels have been forced to retire from Missouri into the adjoining state. The telegraph yesterday says that Price is at Oceola with 5000 men; hesides this, a large body of his troops are in the adjoining counties, and they are becoming so bold as to commit depredations within a few miles of Fort Leavenmust have been written before Fremont was deprived of his command.

COFFEE AND TEL. Should you ever visit Washington again while the Wisconsin regiments are encamped here, and be in want of hotel accommodations, that an epicure might covet, call on the Second Wisconsin regiment; you will always find them at home, and the latch string out. But you should remember that their home is wherever they happen to be,

whether in quarters or in the battle field. The Seventif are in excellent health and spirits, anxiously waiting for something to turn up; they have their blue uniform complete, overcoats included, and all they are

The health of the men is improving, and had it not been for the measles and their effects, our sick list would not amount to one in 200. We had 123 cases of measles, after leaving Madison, and for want of accommodation, some of them had to be sent to the general hospital. When they returned, nine of them were taken with the small-pox and varioloid, within three days. They were obliged to return again to the hospital, and three of them died there .-Although the whole regiment was exposed to the disease, and 63 had never been vaccinated until after the exposure, for want of matter, which could not be procured from the government, yet we had only what small pox government sent us; the boys concluded they would not take it, even if Uncle Sam did furnish it gratis. We have had three other deaths from disease: two from typhoid fever, and one from consumption. The number in hospital is 10; none of them very sick, and not one has been discharged from the regiment yet.

For some days past we have been auxiously expecting orders to go south, but the prospect is no better than when we came here. Troops are constantly arriving, and the force at present on this side of the river near Washington, cannot be less than

No advance in force could be made, at present, owing to the condition of the roads and the nature of the soil, but our forces are gradually moving towards Manassas, and frequently get a slight skirmish with the enemy. Our pickets must be five miles nearer the enemy's force than they were 10 days since; but " forward to Manassas" will not be heard until Richmond is threatened from a southern direction.

SEVENTH. A SOLDIER SHOT FOR SLEEPING WHILE on Dury.-We learn that the remains of a member of Colonel Farnsworth's cavalry regiment passed through this city, from Washington, night before last, he having been sentenced by a court martial, to be shot for having slept while on duty as a guard. The sentence was executed, and es the question of the proper disposal of the body was sent to his friends in Kune county. We have not been able to learn the name of the unfortunate man.

It seems very hard to execute such a penalty under the circumstances, but the as a whole camp is liable to be captured by the enemy when the guard neglects his

duty .- Chicago Journal. While the government permits multitudes of traitors to escape their doom, a poor weary soldier suffers death for an unintentional neglect of duty. Nothing since the commencement of the war has excited our indignation more than this.

"The difficulties of sudden emancipation are thronging around the Czar of worth. The statement of the secretary Russia," says the Chicago Times. It is precisely because the emancipation was not unconditional that the difficulty has occurred. When men long hold in slavery are linois Central Railroad Company is build promised their freedom, they are not likely ing eleven miles of corn cribs along the to wait patiently for red-inpeism to drag his post. Also Major Lynde for a similar line of their road, twelve miles south of them along in servitude for months and Chicago. This is a very large game of years. This experiment in Russia should cribbage. The capacity of this modern be a lesson to us. When we get ready to We understand that the company is abolish slavery, let it be immediate and erecting these cribs to receive corn in pay untrammeled. Liberty is a question that ment for lands purchased of the company, will not bear to be tampered with. There and that the full Chicago market price is is no congeniality between it and conservatism.

Senator Wilson has introduced a bill to punish officers of the army or soldiers who shall return fugitives from slavery. Not mencement of the new year.

House .- Mr. Pendleton introduced a reschange, if any, is necessary in the mode of payment of soldiers who are held as prismers of war.

Mr. Cox introduced the following, which

WHEREAS: The exchange of prisoners in the present war has already been practiced indirectly, and as such exchange would not only increase the vigor of our army but subserve the highest interests of humanity, and as such exchange does not involve the recognition of the rebels as a government, therefore

Resolved, That the President of the Unid States be requested to inaugurate and vstematize measures for the exchange of isoners in the present war.

Mr. Holman introduced a preamble raiterating the sentiments contained in the Crittenden resolutions, adopted at the last session, in effect that the war was forced upon us by the disunionists, and that the only object in carrying it on by the United States, is to re-establish obedience to the constitution and Union, and that when these objects are accomplished the war shall cease, etc. Mr. Holman's proposition concludes with a resolution re-affirming these

On motion of Mr. Stevens, of Pennsylvania, it was laid on the table, by a vote of 71 against 65.

Mr. Dunn offered a resolution instructing the committee on foreign affairs to enquire into the practicability and expediency of procuring the rights and privileges of setement and citizenship, on any part of this continent, or on the adjacent islands, south of the United States, for the habitation of free persons of African descent, who may choose to emigrate thereto from the United States, for the formation of independent colonies; to be protected from foreign molestation. Adopted.

Mr. Lovejoy and Mr. Conway severally ntroduced propositions on questions of slavery, the consideration of which was postponed.

Mr. Watts, delegate from New Mexico, introduced a preamble, concluding with resolution, requesting the secretary of war to report to this house what measures have been or ought to be taken, to expose to punishment, Major Lynde or any other oficers, who may be guilty of treason or cowardice, in surrendering a larger and superior force of United States soldiers to Texan troops, so that those who are innocent may be relieved from blame. Special to Tribune.-It is understood by financial people that the forthcoming report of the secretary of the treasury will present the banking system and the government policy in respect to them, in a light that will fasten the attention of the country upon it. The claim of the government to supply the circulating medium of all kinds, will be presented impressively on the ground of both principle and expediency, and on constitutional necessity.

WARRINGTON, Dec. 4. Times' special,-Information has been received this evening, that the rebel forces are now in possession of Anandale, and their pickets are posted this side. They have a large force of cavalry. Information has been received that there are twelve forts around Centerville, defended by field pieces

only, but no heavy guns. Four regiments of the enemy have lately eft Centerville for Leesburg, where there

are now about 12,000 men. The pickets of General Smith's division were fired upon last night at Lewinsville,

but no injury was done. Last night a deserter from the rebels named Williams, reached our lines. He is an Englishman, and was taken out of his bed at Charleston, on the night of the 4th of June, and forced into the rebel service. He was a private in the 14th South Carolina regiment, but has been for some weeks a servant of Beauregard. He escaped on Monday last. He was dressed in a new uniform of blue, like those of the New York soldiers, and having the New York buttons on. He says the whole regiment was supplied with such uniforms, only a week since, and that the current report was that they had been received in the south from Boston. He states that there is an abundance of good shoes for those of the men who can pay for them. The pair he had on he paid six dol-

Tribune's special.-The intentions of Generals Porter, McCall, Hancock and Wadsworth was to scour the country from Vienna to Hunter's Mill. Mr. Lane said the man most entitled to honor had been punished; at Wilson's creek he perished, and was sacrificed, because he was not relieved when he could have been. The people want to know whether the gallant Gen, Lyon was sacrificed. They want to know why more men were not sent to his relief, and why the army moved at a snails' pace to reinforce Col. Mulligan at Lexington? The people wanted to know the names of those who permitted these thing, and in his (Lane's) opinion, they would not have too look far for the man who permitted the sacrifice of Gen, Lyon. The Slaves of Hebels.

The following is an extract from the report of the Secretary of War, transmitted to congress with the Presiden't Message :-

termination, what shall be done with the slaves abandoned by their owners on the idvance of our troops into southern territory, as in the Beaufort district of South Carolina. The whole white population therein is six thousand, while the number of negres exceeds thirty-two thousand. The panie which drove their masters in wild undisputed possession of the soil. Shall they, armed by their masters, be placed in the field to fight against us, or shall their labor be continually employed in reproducing the means for supporting the armies of rebellion?

The war into which this government has been forced by rebellious traitors, is carried on for the purpose of repossessing the property violently and treacherously reized upon by the enemies of the government, and to re-establish the authority and laws of the United States in the places where it is opposed or overthrown by armed insurrection and rehellion. Its purpose is to recover and defend what is justly its own. War, even between independent nations

belongs to that enemy, by occupying the hostile country, and exercising dominion over all the men and things within its territory. This being true in respect to independent nations at war with each other, it follows that rebels who are laboring by force of arms to overthrow a government, justly bring upon themselves all the consequences of war, and provoke the destruction merited by the worst of crimes. That government would be false to national trust, and would justly excite the ridicule of the civilized world, that would abstain from the use traitorous enemy, by sparing or protecting the property of those who are waging war

The principal wealth and power of the ebel states is a peculiar species of property, consisting of the service or labor of African slaves, or the descendants of Africans .-This property has been variously estimated at the value of from \$700,000,000 to \$1,-000,000,000.

Why should this property be exempt from the hazards and consequences of a rebel-

It was the boast of the leader of the rebellion, while he yet had a sent in the zenate of the United States, that the southern states would be comparatively safe and free from the burdens of war, if it should be brought on by the contemplated rebellion, and that boast was accompanied by the savage threat that "northern towns and cities would become the victims of rapine and military spoils," and that "northern men should smell southern gunpowder and feel southern steel." No one doubts the disposition of the rebels to carry that threat into execution. The wealth of northern towns and cities, the produce of northern farm; northern workshops and manufactories, would certainly be seized, destroyed or appropriated as military spoil. No property in the north would be spared from the hands of the rebels, and their rapine would be defended under the laws of war. While the loyal states thus have all their property and possessions at stake, are the insurgent rehels to carry on warfare against the government in peace and security to their own

Reason and justice and self preservation forbid that such should be the policy of this government, but demand, on the contrary, that, being forced by traitors and rebels to the extremity of war, all the rights and powers of war should be exercised to bring it to a speedy end.

Those who make war against the government justly forfeit all rights of property, privilege and security, derived from the constitution and laws, against which they are in armed rebellion; and as the labor and service of their slaves constitute the chief property of the rebels, such property should share the common fate of war to which they have devoted the property of loval citizens.

While it is plain that the slave property of the south is justly subjected to all the consequences of this rebellious war, and that the government would be untrue to its trust in not employing all the rights and powers of war to bring it to a speedy close, the details of the plan for doing so, like all other military measures, must, in a great degree, be left to be determined by particular exigencies. The disposition of other property belonging to the rebels that becomes subject to our arms is governed by the circumstances of the case. The government has no power to hold slaves, none to restrain him of his liberty, or to exact his service. It has a right, however, to use the voluntary service of slaves liberated by war from their rebel masters, like any other it may be most efficient for the defence of facts to go to the people. Resolution the government, the prosecution of the war, and the suppression of the rebellion. It is clearly a right of the government to arm slaves, when it may become necessary, as it is to use gunpowder taken from the enemy. Whether it is expedient to do so is purely a military question. The right is unquestionable by the laws of war. The expediency must be determined by circumstances, keeping in view the great object of overcoming the rebels, re-establishing the aws, and restoring peace to the nation.

It is vain and idle for the Government to earry on this war, or hope to maintain its existence against rebellious force, without employing all the rights and power of war. As has been said, the right to deprive the rebels of their property in slaves and slave labor, is as clear and absolute, as the right to take forage from the field, or cotton from the warehouse, or powder and arms from the magazine. To leave the enemy in the possession of such property as forage and cotton and military stores, and the means of constantly reproducing them, would be madness. It is, therefore, equal madness to leave them in peaceful and sure possession of slave property, more valuable and ton, and military stores. Such policy would be national suicide. What to do with that species of property, is a question that time and circumstances must solve, and need not be anticipated further than to repent that they cannot be held by the overnment as slaves. It would be usek to keep them as prisoners of war, and : 't preservation, are directed to ascertain the condition the higest duty of a government, or of individuals, demands that they should be disposed of or employed in the most effective manner that will tend most speedily to suppress the insurrection and restore the authority of the government. If it shall be found that the men who have been held by the rebels as slave are capable of bearing arms and performing efficient milstary service, it is the right, and may become the duty, of the government to arm and equip them, and employ their services against the rebels, under proper military regulation, discipline, and command.

Forener float that standard sheet! With Freedom's soil beneath our feet,

enlarge the boundaries of the District of Columbia is probably wise and proper, but when this is done congress should insist that slavery shall be abolished there. Besides the disgrace of permitting human servitude to exist nuder the shadows of the capitol of our free republic, its influence upon the officers of the government is exceedingly pernicious. No matter whom we elect, the poison of slavery begins to work upon him the moment he puts his foot in Washington. The social and political atmosphere is such that few northern men are able to withstand it. It has, during this rebellion, nearly emasculated the government. Let it be wiped out, or the capitol removed to free soil. The institution that is the cause of the present unhappy civil war, should not be tolerated a single instant where the power of the government is sufficient to strike it down.

oursa.-The railroad recommended by the president to be immediately built as a military necessity, to accommodate the loyal regions of East Tennessee and North Caroline, through the Cumberland Gap, would not be less than 250 miles in length. The route being over a hilly and mountainous country, it would cost, including rolling stock, about 50,000 dollars per mile, or \$12,500,000 in the aggregate. Congress will hardly see the necessity of this measure. The first thing to be done to make its construction convenient, would be to get possession of the country. That being accom plished, the railroad would not be needed. If it is proposed to begin before driving out the rebels, perhaps Jeff. Davis would build one half of it. He ought to do so, in strict justice, as he uses all the other railroads of the south which would connect with this proposed line.

CAMP ARLINGTON, Va., Nov. 28. EDITORS GAZETTE:-To those of us accustomed to the old New England style of spending thanksgiving, the day has been one of particular interest. Many and oft have been the thought of home, friends and the pleasing associations which have endeared such a day to us. The camp has been the most quiet and Sunday-like of any day since entering the service, and many a letter has been written to the loved ones at abiding people-a home that Wisconsin

defend to the last. At 11 o'clock to-day the brigade was ordered out to be reviewed by Governor Ran- much real business will be transacted in dall. Should you ever visit Washington again while the Wisconsin regiments are encamped here, and be in want of hotel accommodations, that an epicure might covet, call on the Second Wisconsin regiment; you will always find them at home, and the latch string out. A SOLDIER SHOT FOR SLEEPING WHILE on Dury,-We learn that the remains of a member of Colonel Farnsworth's cavalry regiment passed through this city, from Washington, night before last, he having been sentenced by a court martial, to be shot for having slept while on duty as a guard. The sentence was executed, and the body was sent to his friends in Kane We have not been able to learn the name of the unfortunate man.

It seems very hard to execute such a penalty under the circumstances, but the offence is regarded as one of the most grave that a soldier can commit, inasmuch as a whole camp is liable to be captured by the enemy when the guard neglects his luty.—Chicago Journal.

While the government permits multitudes of traitors to escape their doom, a poor weary soldier suffers death for an unintentional neglect of duty. Nothing since the commencement of the war has excited our indignation more than this.

"The difficulties of sudden emancipation are thronging around the Czar of Russia," says the Chicago Times. It is precisely because the emancipation was not unconditional that the difficulty has occurred. When men long held in slavery are promised their freedom, they are not likely to wait patiently for red-tapeism to drag them along in servitude for months and years. This experiment in Russia should be a lesson to us. When we get ready to who have not already done so, are request abolish slavery, let it be immediate and ed to send the rolls on which they have untrammeled. NEW YORK, Dec. 5. Dispatches from rebel sources: SAVANNAH, Dec. 2.

The Republican of this forenoon says: The Unionists have evacuated Tybee Island; one ship load left on Saturday for the north. On Saturday afternoon a large ship stood in for Warsaw Inlet, and Com. Tatnall's fleet went after her, but she disppeared. There were six more vessels of Tybee Island yesterday. The schooner Waterman, for Charleston, was wrecked off Tybee on Friday morning. She fell into he hands of the blockaders. The cotton and provisions on Hutchinson, Fenwich and adjoining islands were destroyed by ere on Thursday night of last week, by the proprietors. St. Louis, Dec. 5. Gen. Halleck has issued a lengthy general order with reference to the officers of this department, the principal points of which are as follows: Lieut Col. B. G. Warrar has been appointed provost marshal and general of department. Com-manding officers of districts, posts and corps are directed to arrest and place in confine ment all persons in arms against the United States, or who give aid, assistance, or en-couragement to the rebels. All property belonging to such persons, which can be used by the army will be taken possession of for that purpose; and all other property will be examined by a board of officers and sold according to the army regulations. All persons found in disguise as pretended loyal citizens, or under other false promises, within our lines, giving in-formation or communicating with the reb-els, will be arrested, tried and shot as spies.

Persons not commanding or enlisted in the service of the so-called confederate states, who commit acts of hostility, will not be treated as prisoners of wart but be punished as criminals and shot or less severely punished according to the rules of

In consequence of large numbers of Union families and non-combatants, having been plundered and driven from their homes, in a destitute condition, and thousands of such persons are now finding their nes, and under the military law of retali ation, quarter them in the houses, and feed and cloth them at the expense of some se-cessionists, who, although they do not themselves rob and plunder, give aid and en-couragement to, and abet and countenance, such acts of their fellow rebels.

The Slaves of Rebels

port of the Secretary of War, transmitted o congress with the Presiden't Message :-It has become a grave question for determination, what shall be done with the slaves abandoned by their owners on the advance of our troops into southern territory, as in the Beaufort district of South Carolina. The whole white population therein is six thousand, while the number of ne-gres exceeds thirty-two thousand. The panie which drove their masters in wild confusion from their bomes, leaves them in undisputed possession of the soil. Shall they, armed by their musters, be placed in the field to fight against us, or shall their labor be continually employed in reprodu-

The war into which this government has been forced by rebellious traitors, is carried on for the purpose of repossessing the property violently and treacherously seized upon by the enemies of the government, and to establish the authority and laws of the United States in the places where it is opposed or overthrown by armed insurrection and rebellion. Its purpose is to recover and defend what is justly its own. War, even between independent nations,

cing the means for supporting the armies

of rebellion?

made to subdue the enemy, and all that elongs to that enemy, by occupying the hostile country, and exercising dominion over all the men and things within its teritory. This being true in respect to independent nations at war with each other, it ollows that rebels who are laboring by force of arms to overthrow a government, justly bring upon themselves all the consequences of war, and provoke the destruction merit-ed by the worst of crimes. That government would be false to national trust, and would justly excite the ridicule of the civilized world, that would abstain from the use of any efficient means to preserve its own existence, or to overcome a rebellious and traitorous enemy, by sparing or protecting the property of those who are waging war against it.

The principal wealth and power of the rebel states is a peculiar species of property consisting of the service or labor of African slaves, or the descendants of Africans .-I'his property has been variously estimated at the value of from \$700,000,000 to \$1,000,000,000.

Why should this property be exempt from

the hazards and consequences of a rebelfraw enoi It was the boast of the leader of the re-

pellion, while he yet had a seat in the sen ate of the United States, that the southern states would be comparatively safe and free from the burdens of war, if it should be brought on by the contemplated rehellion, and that boast was accompanied by the savage threat that "northern towns and cities would become the victims of rapine and military spoils," and that "northern men should smell southern gunpowder and feel southern steel." No one doubts the disposition of the rebels to carry that threat into execution. The wealth of northern towns and cities, the produce of northern farms, northern workshops and manufacto ries, would certainly be seized, destroyed or appropriated as military spoil. No property in the north would be spared from the ands of the rebels, and their rapine would be defended under the laws of war. While the loyal states thus have all their property and possessions at stake, are the insurgent chels to carry on warfare against the gov ernment in peace and security to their own

property.

Reason and justice and self preservation forbid that such should be the policy of this government, but demand, on the conrary, that, being forced by traitors and rebels to the extremity of war, all the rights and powers of war should be exercised to

bring it to a speedy end. Those who make war against the govern ment justly forfeit all rights of property, privilege and security, derived from the constitution and laws, against which they are in armed rebellion; and as the labor and service of their slaves constitute the chief property of the rebels, such property should share the common fate of war to which they have devoted the property of loval citizens.

While it is plain that the slave property of the south is justly subjected to all the consequences of this rebellious war, and that the government would be untrue to its trust in not employing all the rights and

HERO OF LEXINGTON!! the details of the plan for doing so, like are requested to come forward immediately. all other military measures, must, in a great degree, be left to be determined by particular exigencies. The disposition of other property belonging to the rebels that becomes subject to our arms is governed by the circumstances of the case. The gov ernment has no power to hold slaves, to restrain him of his liberty, or to exact his service. It has a right, however, to use the voluntary service of slaves liberated by war from their rebel masters, like any other property of the rebels, in whatever mode it may be most efficient for the defence of the government, the prosecution of the war, and the suppression of the rebellion. It is clearly a right of the government to arm slaves, when it may become necessary, as it is to use gunpowder taken from the enemy. Whether it is expedient to do so is purely a military question. The right is unquestionable by the laws of war. The expediency must be determined by circumstances, keeping in view the great object of overcoming the rebels, re-establishing the

laws, and restoring peace to the nation.

It is vain and idle for the Government to carry on this war, or hope to maintain its existence against rebellious force, without employing all the rights and power of war. As has been said, the right to deprive the rebels of their property in slaves and slave labor, is as clear and absolute, as the right to take forage from the field, or cotton from the warehouse, or powder and arms from the magazine. To leave the enemy in the possession of such property as forage and cotton and military stores, and the means of constantly reproducing them, would be madness. It is, therefore, equal madness to leave them in peaceful and sure posses sion of slave property, more valuable and efficient to them for war, than forage, cotton, and military stores. Such policy would be national suicide. What to do with that species of property, is a question that time and circumstances must solve, and need not he anticipated further than to repeat that they cannot be held by the government as slaves. It would be useled to keep them way into this city, provost marshals as prisoners of war, and colf-preservation, are directed to ascertain the condition the higest duty of a government, or of indiotrophersons so driven away from their viduals, demands that they should be disposed of or employed in the most effective manner that will tend most speedily to suppress the insurrection and restore the authority of the government. If it shall be found that the men who have been held by the rebels as slave are capable of bearing arms and performing efficient milatary ser vice, it is the right, and may become duty, of the government to arm and equip them, and employ their services against the rebels, nuder proper military regulation, discipline, and command.

But in whatever manner they may be used

by the government, it is plain that, once berated by the rebellious act of their masters, they shold never again be restored to bondage. By the mastar's treason and re-bellion he forfiets all right to labor and and service of his slave; and the slave of the rebellions master, by his service to the government, becomes justly entitled to free-

of rebels, after the close of the war, can be safely left to the wisdom and patriotism of The following is an extract from the recongress. The representatives of the people will unquestionably secure to the loyal slaveholders every right to which they are entitled under the constitution of the country.

A REBEL NEGRO REGIMENT IN ARMS! -We learn by a gentleman direct from the upper Potomac, that Gen. Jackson is now at Winchester, Va., in command of a regiment of negroes, that they are fully armed and equipped, and are being thoroughly drilled, in which exercise they take great delight. This information comes to us from source entitled to credit, and from recent developments in other slave states, we apprehend that arming the negros against us, now the settled policy of the rebels.-From the first these men have been used for the benefit of the rebel army, either in building fortifications, supplying it with the means of sustenance, in working their guns or doing the drudgery of the camp, and now, when they can be of more service under arms, they are enrolled into regiments, to become a part of their fighting element.

Mr. Prentice, of the Louisville Journal,

says" that the time has unquestionably ar-rived when Mr. Cameron should be compelled to retire from the cabinet," because he endorses Col. Cochrane's sentiments.-We apprehend the very reverse to be the fact; if Mr. Cameron entertained Mr. Prentice's sentiments the people and the army would demand his expulsion, and would be no power to save him from a dis-graceful exit from the war department.— Washington National Republican.

Mr. Prentice, in a letter from New York, states that he did not write the article in question, and that it was published in his paper under a misapprehension of Mr. Cameron's policy. We shall publish Mr. z. to 734 and 8 P. M. Cameron's report in full, and the people of the loyal states, we apprehend, will fully sustain him instead of demanding his re

A New Arrangement. On the 1st of next January a torship of the Gazette Office by the withdrawal of Mr. Bowen. This change will render absolutely necessary a settlement of the subscriptions and other accounts due the present firm. We kope our friends will give this matter their immediate attention, and leave as few debts as possible for settlement after the change is made. It will be easier and better to all concerned to settle before that time, as a settlement must be made.

An exchange says that "the elements of homan happiness are love to God and man, love to one woman, and the possession of a

To Our Debtors.

It will be seen by a notice in another column, that on the first of January next there will be a change in the proprietorship of the Gazette. The NECESSITY of a settlement of ALL our accounts will be apparent to all who will give the subject their attention, and as our own convenience will be materially promoted by a settlement before the dissolution of the partnership, and the interest of no debtor will be injured by doing in season what must come at last, we hope there will be no request or attempt at delay. Mr. Wilcox will devote his time to this matter, and as there are a large number of persons to settle with, let each one be prepared when called on. No one change will be made in the proprie- will be turned out of the office if he calls here for that purpose.

The Contrast.

Here are a couple of paragrphs reported by the telegraph:

Three negroes from below presented themselves to the picket guard at Bird's Point about noon to day, and were taken to Col. Oglesby, commanding Bird's Point, who ordered them sent back through the lines, with orders not to return again.

The report that Jeff Thompson has four hundred negroes working on fortifications at New Madrid is confirmed. Thompson has 1,500 men under his command. Will not the skeptical reader, if there be

one, consider these two paragraphs a moment. The aid refused by Gen. Halleck is appropriated by Jeff Thompson, without any squeamishness about "niggers." Can any more effective mode be devised by our military commanders to aid the rebels than the one adopted by Gen. Hallock and his imitators in driving slaves from our camps into those of the enemy? We wish, READINGS .- Myron W. Weed, of the to heaven, a little common sense could be ficers and their superior authority.

Patriotic Meeting of Irish Citizens.

The Irish citizens of Rock county met at he court house last evening, for the purpose of setting forth their opinions as to the present war, and the position they ough: to hold as guardians of their adopted coun-

The meeting was called to order by Mr. Wm. Addy, and appointed Mr. John W. Allen as chairman, and Michael Lynch as secretary.

Col. Doran of the 17th Wisconsin volunteers, (Irish Brigade,) addressed the meeting in an eloquent speech, setting forth the duties of Irishmen as citizens of America, incumbent upon them to support, sustain and defend the flag that affords them, their children and their wives, its proud protection. The colonel was warmly applauded throughout his address. Judge Armstrong being called on deliv-

ered an eloquent and pithy speech on the reminisences of Irish Brigades, and their historical position in the different wars for freedom in Europe and America.

The chairman, Mr. Allen, also addressed the meeting, reviving by his practical words the enthusiasm of his countrymen to stand by the post of danger when the star spangled banner of their adopted country requires the Celtic arm to defend it.

The meeting adjourned with that warmth and patriotism which promises a full contingent of the Celtic element in this neighborhood to wield the arms of our country in defence of our families, our altars and our

This above are First Class, justly popular, and prompt puring companies. They invite investigation into their condition and solicit business entirely upon their real movins. In point of selvency and reliability and honorable dealing, they have but few equals, and me superiors. They are founded upon the very best securities in the world—inst class bonds and mortgages upon property in New York and Brooklyn—securities that have not fur the next ton years discrepited below that in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the ductantions of the market, and litable, in times of yourie, as the experience of the past teaches, to become almost, if not entirely, valueloss. And while there are Companies entering the field of composition, well calculated to misliced by publishing partial and one-sided statements of their condition, and without a cash surphis on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep ever and above their capital twice the amount, and in most instances four times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for library hardings.

RIFLEMEN. One company in Col Berdan's Regiment of Sharpshooters—Capt Drew. A DEAD BODY LIES THIRTEEN DAYS IN

CITY HOTEL WITHOUT DISCOVERY .- The Utica (New York) Herald gives the following account of a singular occurrence in that city:
"A Mrs. Wilson, of New York, who kept a large boarding house on Lafayette Place

-aged about sixty, came up to Utica on business. With a friend, Mr. Holt, she returned to Bragg's Hotel in the evening, to await a train of cars. After talking awhile with Mr. Holt, she excused herself for a few moments, and left the ladies' parlor. Mr. Holt waited in vain for her return, then made search for her through the halls, in the depot, &c., but concluding Mrs. W. had by mistake taken a western bound train, he abandoned the search and went home .-This was on the 12th. Some days after, the sou-in-law of Mrs. Wilson, alarmed at her long absence, visited Utica, learned the facts as to her disappearance, and then instituted a thorough search, which resulted in finding Mrs. W.'s dead body at the foot of a short flight of steps, which led from a wash room—just across the hall from the ladies parlor—down to an unused store She was found with her head down at the foot of the stairs, and her body lying on the stairs and her neck broken. mistake she took the wrong way out. The

body had lain there thirteen days." THEN AND NOW .- Twenty days ago our brave troops in Missouri had just routed the enemy in the battle of Frederictown, and the four successive skirmishes of Lexington, Wet Glaze, Linn Creek, and Spring field. They had driven the rebels down to the Arkansas line, and were still in pursuit, when Gen. Fremont was removed from the command for \"iucompetency." Since that time our army has evacuated Springfield, leaving all Southern Missouri to be anew overrun by the rebels, while Union families by hundreds are flying for their lives. The enemy has been permitted to advance more than a hundred miles to the north, burn Warsaw, and destroy the government supplies which were stored there, rob the steamer Platte Valley on the Mississippi, and the Sunshine on the Missouri, and cap ture a valuable train loaded with guns, be-tween Sedalia and Leavenworth. But, on I have also some eligible lots in my addition, west of the Depots, which I will sell at prices within the reach in giving orders for the rendition of fugifial who desire to secure the other hand, great vigor has been shown tive slaves, in hunting down even the negroes who accompanied Gsn. Fremont and his staff on their return to St. Louis, culminating in Gen. Halleck's order to kick out all fugitives who have sought protection in

our lines. We do not venture to make any comment apon these facts, Indeed, they need none. -St. Louis Dem. 28th.

CLOTH MITTENS .- A lady correspondent of one of the New York papers calls attention to the fact that cloth mittens could be made for our soldiers with sewing machines at a comparatively small cost. In this way she thinks our army could be provided with these useful articles before the cold weather sets in. She says that "cloth should be strong and soft, and the mittens should be cut bias of the cloth. They may be bound with Canton fiannel or woolen, and if well made, would last through the season with ordinary usage." The suggestion may be worthy of attention. Knit mittens are undoubtedly preferable if they can be furnished in time; but if not the sewing machine

Singer's Letter A Machine,

Is the best Machine in the word for Family Sewing and Light Manufacturing purposes; Price, (with Hemmer.) and beautifully ornamented,

FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.

Our No. 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK.

in Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimher's ditching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inches long, and the snuttle with hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the intertock stitch, and are destined to be as celebrated for Family Sewing and Illeht manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemmiug Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold of the most inferi-or quality, at higher prices than we charge for the best. The needles sold by me are manufactured especially for our machines. A bad needle may render the best ma-chine almost useless. Our customers may rest assured that all our Branch dices are furnished with the GENUINE ARTICLE.

In case of small purchases, the money may be sent in postage stamps or bank notes.

So Currespondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

23. All persons requiring information about Sewing Machines, their size, prices, working capacities, and the best methods of purchasing, can obtain it by sending to us, or any of our Branch Offices for a copy of

1. M. SINGER & CO.'S GAZETTE. which is a beautifully illustrated Pictorial Paper. I will be sent Gratiz

We have made the above Reduction in Prices with the two fold view of benefiting the public and ourselves. The public have been swindled by spurious machines made in initation of ours. The metal in them, from the iron custing to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishmens, and having extensive manufacturing establishmens. chanical appliances. It is only by doing a great business, and having extendive manufacturing establishments, that pool machines can be made at moderate prices. The best designed machines, Bally Made, are always lable to get out of order, and are sure to execonsiderable trouble and money to keep them in repair. The quadries to be looked for in a machine are: certainly of correct action at all rates of speed, simplicitly of construction, great durubility and rapidity of operation, with the least lubor. Machines to combine these essential qualities, must be made of the best metal and finished to prefer the manufacture of machines, whose dally bread it may concern, will find that those having the above qualities not only work well at rapid as well as slow rates of speed, but last long in the fluest possible working order. Our machines, as made by us, will carm more money with less labor than any others, whether in initation of ours or not. In fact, they are cheaper than any other machines as a gift.

W. G. MAKING.

Official Paper of the City.

Ferever float that standard sheet! Where breathes the foe but falls before us With Freedom's soil beneath our feet, And Freedom's banner streaming o'er us.

Enlargement of the District of Col-umbia.

The recommendation of the president to enlarge the boundaries of the District of Columbia is probably wise and proper, but that slavery shall be abolished there. Besides the disgrace of permitting human sercapitol of our free republic, its influence upon the officers of the government is exceedingly pernicious. No matter whom we elect, the poison of slavery begins to work upon him the moment he puts his foot in Washington. The social and political atmosphere is such that few northern men are able to withstand it. It has, during this rebellion, nearly emasculated the government. Let it be wiped out, or the capitol removed to free soil. The institution that is the cause of the present unhappy civil war, should not be tolerated a single instant where the power of the government is sufficient to strike it down.

THE MILITARY RAILBOAD TO NORTH CAR-OLINA.-The railroad recommended by the president to be immediately built as a military necessity, to accommodate the loyal regions of East Tennessee and North Carolina, through the Cumberland Gap, would not be less than 250 miles in length. The route being over a hilly and mountainous country, it would cost, including rolling stock, about 50,000 dollars per mile, or \$12,500,000 in the aggregate. Congress will hardly see the necessity of this measure. The first thing to be done to make its construction convenient, would be to get possession of the country. That being accomplished, the railroad would not be needed. If it is proposed to begin before driving out the rebels, perhaps Jeff. Davis would build one half of it. He ought to do so, in strict justice, as he uses all the other railroads of the south which would connect with this proposed line.

CHARACTERISTIC .- The Madison Journal has procured a report of the infantry enlistments in this state by counties up to the TWELFTH, including that regiment. The sole object of this report seems to us to enable that paper to make " a blow?" for Dane county, and, of course, is a very raluable piece of general information! By this operation, the 11th regiment, in which there are more Dane county recruits than in any other, is included, and Dane is shown to be ahead of Rock, and the second in the state, Milwaukee taking the lead. By stopping with the 12th, the 13th, to which Rock county has contributed three-quarters of the whole number, is excluded. According to this table, Dane is reported at 840 enlistments, and Rock at 523.

Nothing, moreover, is said about the large number of Rock county recruits in the companies organised in Madison, which help Dane county to the 840 men claimed for her, when it is notorious that in some of the Madison companies a majority whent from Rock county, because the state officers being in Madison gave that place peculiar facilities for puompt enlistment in the outbreak of the war. Rock county has enlisted over 1,400 infantry volunteers in various regiments, at least two cavalry and one artillery company, a considerable number in the regular army, and Illinois has drawn many from the county. Dane county has not done near as well, though Madison has got the lion's share of the benefits derived from the organization of the troops

This attempt of the Journal to make a reputation for Dane county might have been expected when any local interest is in question, but it looks to us like a very small transaction.

REPORT OF THE SECRETARY OF WAR .-We publish that portion of the report of the secretary of war, to-day, which discuss-guard. The sentence was executed, and es the question of the proper disposal of the body was sent to his friends in Kane the slaves of rebels. It will be found, unlike the message of the president on that subject, clear, practical and right. We shall, to-morrow, commence the publication of the entire report. It will amply repay an attentive perusal.

SLIGHTLY MISTAKEN .- The secretary of war says, in his report, that the rebels have been forced to retire from Missouri into the adjoining state. The telegraph yesterday says that Price is at Oceola with 5000 men; besides this, a large body of his troops are in the adjoining counties, and they are becoming so bold as to commit depredations within a few miles of Fort Leavenworth. The statement of the secretary must have been written before Fremont was deprived of his command.

ELEVEN MILES OF CORN CRIBS .-- The H linois Central Railroad Company is building eleven miles of corn cribs along the line of their road, twelve miles south of Chicago. This is a very large game of cribbage. The capacity of this modern grannary is 3.000,000 bushels!

We understand that the company is erecting these cribs to receive corn in payment for lands purchased of the company, and that the fell Chicago market price is to be allowed for con delivered there. Chicago Journal.

CAMP ABLINGTON, Va., Nov. 28. EDITORS GAZETTE:-To those of us accustomed to the old New England style of spending thanksgiving, the day has been one of particular interest. Many and oft have been the thought of home, friends and the pleasing associations which have endeared such a day to us. The camp has been the most quiet and Sunday-like of any day since entering the service, and many a soldiers are proud of, and are ever ready to defend to the last.

At 11 o'clock to-day the brigade was ordered out to be reviewed by Governor Randall. They were drawn up in front of the mansion of that notorious rebel Gen. Lee. where the governor addressed them for half an hour in a very earnest and effective manner. The place—the circumstances the day, and the governor's favewell address to nearly 3,000 of his fellow citizens and soldiers will long be remembered by all present. After the review, the governor with Gen. King and staff visited the camps of all the regiments in the brigade.

At 2 o'clock we were brought up in line of battle to do justice to a splendid Thankswhen this is done congress should insist giving dinner, given by the 2d Wisconsin in camp style. Should you ever visit Washington again while the Wisconsin regiments are encamped here, and be in want of hotel accommodations, that an epicure might covet, call on the Second Wisconsin regiment; you will always find them at home, and the latch string out. But you should remember that their home is wherever they happen to be, whether in quarters or in the battle field.

The Seventh are in excellent health and spirits, anxiously waiting for something to turn up; they have their blue uniform complete, overcoats included, and all they are waiting for is for orders to move.

The health of the men is improving, and had it not been for the measles and their effects, our sick list would not amount to one in 200. We had 123 cases of measles, after leaving Madison, and for want of accommodation, some of them had to be sent to the general hospital. When they returned, nine of them were taken with the small-pox and varioloid, within three days. are 60,000 strong. They were obliged to return again to the hospital, and three of them died there .-Although the whole regiment was exposed to the disease, and 63 had never been vaccinated until after the exposure, for want of matter, which could not be procured from the government, yet we had only what small pox government sent as; the boys concluded they would not take it, even if Uncle Sam did furnish it gratis. We have had three other deaths from disease: two from typhoid fever, and one from consumption. The number in hospital is 10; none of them very sick, and not one bas Leen dis-

charged from the regiment yet. For some days past we have been anxiously expecting orders to go south, but the prospect is no better than when we came here. Troops are constantly arriving, and the force at present on this side of the river near Washington, cannot be less than

A Soldier Shot for Sleeping while ON DUTY.-We learn that the remains of a member of Colonel Farnsworth's cavalry regiment passed through this city, from Washington, night before last, he having been sentenced by a court martial, to be shot for having slept while on duty as a county. We have not been able to learn the name of the unfortunate man.

It seems very hard to execute such penalty under the circumstances, but the offence is regarded as one of the most grave that a soldier can commit, inasmuch as a whole camp is liable to be captured by the enemy when the guard neglects his duty.—Chicago Journal.

While the government permits multitudes of traitors to escape their doom, a poor weary soldier suffers death for an unintentional neglect of duty. Nothing since the commencement of the war has excited our indignation more than this.

"The difficulties of sudden emancipation are thronging around the Czar of Russia," says the Chicago Times. It is precisely because the emancipation was not unconditional that the difficulty has occurred. When men long held in slavery are promised their freedom, they are not likely to wait patiently for red-tapeism to drag them slong in servitude for months and years. This experiment in Russia should be a lesson to us. When we get ready to abolish slavery, let it be immediate and ed to send the rolls on which they have untrammeled. Warrar has been appointed provost mar-shal and general of department. Commanding officers of districts, posts and corps are directed to arrest and place in confinement all persons in arms against the United States, or who give aid, assistance, or encouragement to the rebels. All property belonging to such persons, which can be used by the army will be taken possession of for that purpose; and all other property will be examined by a board of officers and sold according to the army regulations. All persons found in disguise as pretended loyal citizens, or under other false promises, within our lines, giving information or communicating with the reb-

als, will be arrested, tried and shot as spies. Persons not commmanding or enlisted in he service of the so-called confederate states, who commit acts of hostility, will not be treated as prisoners of wart but be punished as criminals and shot or less severely punished according to the rules of

In consequence of large numbers of Union families and non-combatants, having been plundered and driven from their homes, in a destitute condition, and thousands of such persons are now finding their way into this city, provost marshals are directed to ascertain the condition of persons so driven away from their homes, and under the military law of retaliation, quarter them in the houses, and feed and cloth them at the expense of some secessionists, who, although they do not themselves rob and plunder, give aid and en-couragement to, and abet and countenance, such acts of their fellow rebels.

The Slaves of Rebels.

The following is an extract from the re port of the Secretary of War, transmitted to congress with the Presiden't Message :-It has become a grave question for determination, what shall be done with the laves abandoned by their owners on the

advance of our troops into southern territory, as in the Beaufort district of South Carolina. The whole white population therein is six thousand, while the number of negres exceeds thirty-two thousand. panic which drove their masters in wild confusion from their homes, leaves them in andisputed possession of the soil. Shall they, armed by their masters, be placed in the field to light against us, or shall their labor be continually employed in reproducing the means for supporting the armies of rebellion?

The war into which this government has been forced by rebellious traitors, is carried on for the purpose of repossessing the property violently and treacherously seized upon by the enemies of the government, and to re-establish the authority and laws of the United States in the places where it is opposed or overthrown by armed insurrection and rebellion. Its purpose is to recover and defend what is justly its own. War, even between independent nations,

is made to subdue the enemy, and all that belongs to that enemy, by occupying the hostile country, and exercising dominion over all the men and things within its territory. This being true in respect to inde-pendent nations at war with each other, it follows that rebels who are laboring by force of arms to overthrow a government, justly bring upon themselves all the consequences of war, and provoke the destruction merited by the worst of crimes. That government would be false to national trust, and would justly excite the ridicale of the civilized world, that would abstain from the use of any efficient means to preserve its own existence, or to overcome a rebellious and traitorous enemy, by sparing or protecting the property of those who are waging war

The principal wealth and power of the rebel states is a peculiar species of property, consisting of the service or labor of African slaves, or the descendants of Africans .-This property has been variously estimated at the value of from \$700,000,000 to \$1,-000,000,000.

Why should this property be exempt from the hazards and consequences of a rebel-

lious war? It was the boast of the leader of the rebellion, while he yet had a seat in the senate of the United States, that the southern states would be comparatively safe and free from the burdens of war, if it should be brought on by the contemplated rebellion, and that boast was accompanied by the savage threat that "northern towns and cities would become the victims of rapine and military spoils," and that "northern men should smell southern gunpowder and feel southern steel." No one doubts the disposition of the rebels to carry that threat into execution. The wealth of northern towns and cities, the produce of northern farms, northern workshops and manufactories, would certainly be seized, destroyed or appropriated as military spoil. No property in the north would be spared from the hands of the rebels, and their rapine would be defended under the laws of war. While the loyal states thus have all their property and possessions at stake, are the insurgent rebels to carry on warfare against the govrument in peace and security to their own

Reason and justice and self preservation forbid that such should be the policy of his government, but demand, on the contrary, that, being forced by traitors and rebels to the extremity of war, all the rights and powers of war should be exercised to

bring it to a speedy end. Those who make war against the govern ment justly forfeit all rights of property, privilege and security, derived from the constitution and laws, against which they are in armed rebellion; and as the labor and service of their slaves constitute the chief property of the rebels, such property should share the common fate of war to which they have devoted the property of loval citizens.
While it is plain that the slave property

of the south is justly subjected to all the consequences of this rebellious war, and that the government would be untrue to its trust in not employing all the rights and powers of war to bring it to a speedy close, the details of the plan for doing so, like all other military measures, must, in a great degree, be left to be determined by particular exigencies. The disposition of other property belonging to the rebels that beomes subject to our arms is governed by the circumstances of the case. erament has no power to hold slaves, none to restrain him of his liberty, or to exact his service. It has a right, however, to use the voluntary service of slaves liberated by war from their rebel masters, like any other property of the rebels, in whatever mode it may be most efficient for the defence of the government, the prosecution of the war, and the suppression of the rebellion. It is clearly a right of the government to arm slaves, when it may become necessary, as it is to use gunpowder taken from the enemy. Whether it is expedient to do so i purely a military question. The right is unquestionable by the laws of war. The

expediency must be determined by circumstances, keeping in view the great object of overcoming the rebels, re-establishing the laws, and restoring peace to the nation. It is vain and idle for the Government to carry on this war, or hope to maintain its existence against rebellious force, without

employing all the rights and power of war. As has been said, the right to deprive the rebels of their property in slaves and slave labor, is as clear and absolute, as the right to take forage from the field, or cotton from the warehouse, or powder and arms from the magazine. To leave the enemy in the possession of such property as forage and cotton and military stores, and the means of constantly reproducing them, would be madness. It is, therefore, equal madness to leave them in peaceful and sure possession of slave property, more valuable and efficient to them for war, than forage, cotton, and military stores. Such policy would be national suicide. What to do with that species of property, is a question that time and circumstances must solve, and need not be anticipated further than to repeat that they cannot be held by the overnment as slaves. It would be usek to keep them as prisoners of war, and off-preservation, the higest duty of a government, or of individuals, demands that they should be disposed of or employed in the most effective manner that will tend most speedily to suppress the insurrection and restore the authority of the government. If it shall be found that the men who have been held by the rebels as slave are capable of bearing arms and performing efficient milstary service, it is the right, and may become the duty, of the government to arm and equip them, and employ their services against the rebels, under proper military regulation, discipline, and command.

But in whatever manuer they may be used

by the government, it is plain that, once liberated by the rebellious act of their masters, they shold never again be restored to bondage. By the mastar's treason and re-bellion he forfiets all right to labor and and service of his slave; and the slave of the rebellions master, by his service to the government, becomes justly entitled to free-

This information comes to us from a source entitled to credit, and from recent developments in other slave states, we apprehend that arming the negros against us, is now the settled policy of the rebels.— From the first these men have been used for the benefit of the rebel army, either in building fortifications, supplying it with the means of sustenance, in working their guns or doing the drudgery of the camp, and now, when they can be of more service under arms, they are enrolled into regiments, to become a part of their fighting element.

Mr. Prentice, of the Louisville Journal, says "that the time has unquestionably arrived when Mr. Cameron should be compelled to retire from the cabinet," because he endorses Col. Cochrane's sentiments .-We apprehend the very reverse to be the fact; if Mr. Cameron entertained Mr. Prentice's sentiments the people and the army would demand his expulsion, and there would be no power to save him from a disgraceful exit from the war department .-Washington National Republican.

Mr. Prentice, in a letter from New York, states that he did not write the article in question, and that it was published in his saper under a misapprehension of Mr. Cameron's policy. We shall publish Mr. Cameron's report in full, and the people of the loyal states, we apprehend, will fully sustain him instead of demanding his removal.

A New Arrangement.

On the 1st of next January a change will be made in the proprietorship of the Gazette Office by the withdrawal of Mr. Bowen. This change will render absolutely necessary a settlement of the subscriptions and other accounts due the present firm. We hope our friends will give this matter their immediate attention, and leave as few debte as possible for settlement after the change is made. It will be easier and better to all concerned to settle before that time, as a settlement must be made.

TREASURER'S RECEIPTS.

We have printed a very superior article of TREASURER'S RECEIPTS, with stubs, which we will sell for 75 cents a hundred. The utility of this kind of receipts will be seen by examining them.

Lieutenants Noyes and Glover. I---Walworth County Plough Boys---Captain J. H. Lauderdale; Lieutenants Kingman and Carroll.

Co. K-Tredway Rifles-Captain Pliny Nor-Cross: Lieutenants Wemple and Burdick.

Colonel Maloney has been in the regular service for fifteen years, having served in the Florida, Mexican and Oregon wars, and received repeated promotions for meritorions conduct. No regiment raised in this state is composed of better material, and the discipline and knowledge requisite to rank it with the best volunteer troops in the army. The whole state may well be proud of such a regiment as the 13th.

THE CAVALRY REGIMENT. - Yesterday Capt. Vitturn arrived here with 52 men from Baraboo, and Capt. Off with 47 men from Watertown for Col. Barstow's regiment. Both these companies are full, but the balance of each is so scattered that there was not time to collect them in season to report here full since the notice of the restoration of Col. In consequence of the order to omit the erection of barracks, and the want of tents for camping, there is a deficiency of accommodations in the city for the men daily arriving. Over 500 are now here, and yesterday 130 were stopped, by telegraph, from coming until arrangements for their board and lodgings can be made. Quartermaster Farr lodged 50 last night on the floor of his office. The St. Paul company is now on its way on foot somewhere north of La

To Our Debtors.

It will be seen by a notice in another colump, that on the first of January next there will be a change in the proprietorship of the Gazette. The NECESSITY of a settlement of ALL our accounts will be apparent to all who will give the subject their attention, and as our own convenience will be materially promoted by a settlement before the dissolution of the partnership, and the interest of no debtor will be injured by doing in season what must come at last, we hope there will be no request or attempt at delay. Mr. Wilcox will devote his time to this matter, and as there are a large number of persons to settle with, let each one be prepared when called on. No one will be turned out of the office if he calls here for that purpose.

The Contrast.

Here are a couple of paragrphs reported by the telegraph:

Three negroes from below presented themselves to the picket guard at Bird's Point about noon to-day, and were taken to Col. Oglesby, commanding Bird's Point, who ordered them sent back through the

lines, with orders not to return again.

The report that Jeff Thompson has four hundred negroes working on fortifications at New Madrid is confirmed. Thompson has 1,500 men uuder his command. Will not the skeptical reader, if there be

one, consider these two paragraphs a moment. The aid refused by Gen. Halleck is appropriated by Jeff Thompson, without any squeamishness about "niggers." Can any more effective mode be devised by our military commanders to aid the rebels than the one adopted by Gen. Halleck and his imitators in driving slaves from our camps into those of the enemy? We wish, to heaven, a little common sense could be pounded into the heads of our military officers and their superior authority.

Patriotic Meeting of Irish Citizens.

The Irish citizens of Rock county met at the court house last evening, for the purpose of setting forth their opinions as to the present war, and the position they ought to hold as guardians of their adopted coun-

The meeting was called to order by Mr. Wm. Addy, and appointed Mr. John W. Allen as chairman, and Michael Lynch as secretary.

Col. Doran of the 17th Wisconsin volun teers, (Irish Brigade,) addressed the meeting in an eloquent speech, setting forth the duties of Irishmen as citizens of America, incumbent upon them to support, sustain and defend the flag that affords them, their children and their wives, its proud protection. The colonel was warmly applauded throughout his address.

Judge Armstrong being called on deliv ered an eloquent and pithy speech on the reminisences of Irish Brigades, and their historical position in the different wars for freedom in Europe and America.

The chairman, Mr. Allen, also addressed the meeting, reviving by his practical words the enthusiasm of his countrymen to stand by the post of danger when the star spangled banner of their adopted country requires the Celtic arm to defend it.

The meeting adjourned with that warmth and patriotism which promises a full contingent of the Celtic element in this neighborhood to wield the arms of our country in defence of our families, our altars and our

Letter from a Prisoner.

Mr. Joseph Reed, of the town of Magnolia, has received the following letter from his son E. R. Reed, who is a prisoner at Richmond. Young Reed enlisted in Capt. Randolph's company, which recruited in Madison, and was attached to the 2d regiment. He was wounded in the shoulder at the battle of Bull Run by a member of the 69th New York, when that regiment broke through the ranks of the 2d Wisconsin and under his instruction it will rapidly acquire fired at the rebels from the rear of the Wisconsin troops. Mr. Reed writes cheerfully, and we hope his expectations of a Christmas festival at home will be realized.

RICHMOND, Va., Nov. 8th, 1861. All who are interested to hear from E R. Reed, greeting:

I am still held as a prisoner of war.-Have jolly good times down here. Spend our leisure time whittling bones. Have learned that in whatsoever circumstances I may be placed, therewith to be content. Was never more contented and happy. I am. I abide my time with pleasure. I think I shall be with you Christmas.

My wound has long been healed, but I have not yet a sound shoulder. Joy be with you till I come.

always on hand.

An experience of twenty years in the Dry Goods Trade (six of which have been spent studying the tastes of the Janesville buying community) enables us to say that our stock has been well selected. Being entirely new, and having been purchased from the first houses in New York City, our goods will compare favorably with any in the Great West.

With this notice we solicit a share of the public patronge, hoping that our efforts to give general satisfaction will be appreciated by a discerning and generous people.

RIORDAN & LEECH. will not be undersold by any firm in the United States. Don't be deceived by false signals, but come to the store of McKey & Bro.'s where you will see more goods than the combined stocks of the would-be large stores than the combined stocks of the would-be large stores of this city.

To meet the wants of our increasing trade, we are now enlarging our store, which, when completed, will compare in slee with any west of New York city. The new addition will be completed in 30 days from date, making the size of our store 44 by 166 feet, enabling us to do all our wholesale and retail business on the ground floor. Respectfully Submitted, McREY & BRO., East side Main st., Janesville, Wis., sign of the Golden Sheep.

The want of an authentic and through History of the Rebellion, for present reference and future preservation, is the subject of general remark. No work of that nature has yet been offered to the public, and all who wish for information are compelled to grope through the maxes of the rumors, reports, dispatches, letters and ditorials of the daily newspapers, to presipitate, from its confused columns, the great facts and incidents of the struggle for the Union.

To meet this want, and to produce a work of permanent value as well as of present interest, the publisher has arranged for the lissue of the history as above set forth—in a form and at a price which shall render it acceptable to all.

set forth—in a form and at a price which shall render it acceptable to all.

This instory will tell the STORY AS 17 18, giving a clear, consecutive narrative of the entire movement, including all the incidents and events in their exact order, and containing the important documents and extracts from remarkable species. It will not be a merediary, nor a mere enumeration of dry and naked dates, nor a compilation of slips from newspapers, but will portray in connected and interesting narrative, the revolutionary steps, as well as the measures of the government.

It will carefully digest all evidence—will silt all rumors and reports—will fix upon facts, and correct so far as possible the crors and discrepancies incident to the hasty narratives of the newspapers.

It will be written in a style suited to its theme—at once graphic, samest and luminous, introducing such personal and social incidents as may serve to show the relations of individuals and communities to the grand events of the time.

It is true, everybody reads the newspapers, but the reports of the newspapers are the fragmentary and contradictory children of the moment, and not a correct, connected and complete history. The above publication, efferwards bound in a handsome volume, will be a book for the family, which will be valued like the records of the War of Independence, or the Life of Washington, and worthy to be kept for children and grand-children, as a memoral of the present time.

It will thus prove desirable, available and satisfactory to every citizen, overy family, every office, every library; and is given to the public in the full assurance that it will command the approbation of every particle, every Union mass, every good citizen in our still Glerious
